### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gregory LaPointe on 5/17/04.

The application has been amended as follows:

In claim 21, line 4, delete "wherein polymer".

In the specification:

On page 6, after line 19 insert;

--The surfactant may be present in an amount between about 0.3% and about 1.0% w/v, and the salt in an amount between about 0.1% and about 0.5% w/v.--.

On page 8, Table 1, in the heading delete "ppm" and insert therefor "--% w/v--".

2. The following is an examiner's statement of reasons for allowance: The present invention is distinguished from the prior art of Stern (5026735), which failed to teach the specified polymer range, and Thompson Sr. (6302209) which failed to teach the specified salt range. Blanco (5783525) teaches an oil in water well fluid which can

contain a salt, sodium lauryl sulfate and a polysaccharide. Blanco in the only example to utilize a polysaccharide (Example 6), teaches the surfactant outside the present claimed range, and utilizes a calcium salt instead of a potassium or sodium salt. Furthermore, addition of oil to the fluid would render the fluid not to be susceptible to being foamable as claimed in the present invention. As a whole, Blanco is not specific enough to render the present invention obvious to one of ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Philip C Tucker whose telephone number is 571-272-1095. The examiner can normally be reached on Monday - Friday, Flexible schedule.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan can be reached on 571-272-1119. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
